

L.O: I can explore and explain different patterns.

What is a pattern?

A pattern is a repeated decorative design.

What patterns can you see?

What patterns can you see?

Have a look around the house:

What repeated patterns can you see?

Try and find 3 examples.

Examples:

wallpaper

cushions

bed covers

tiles

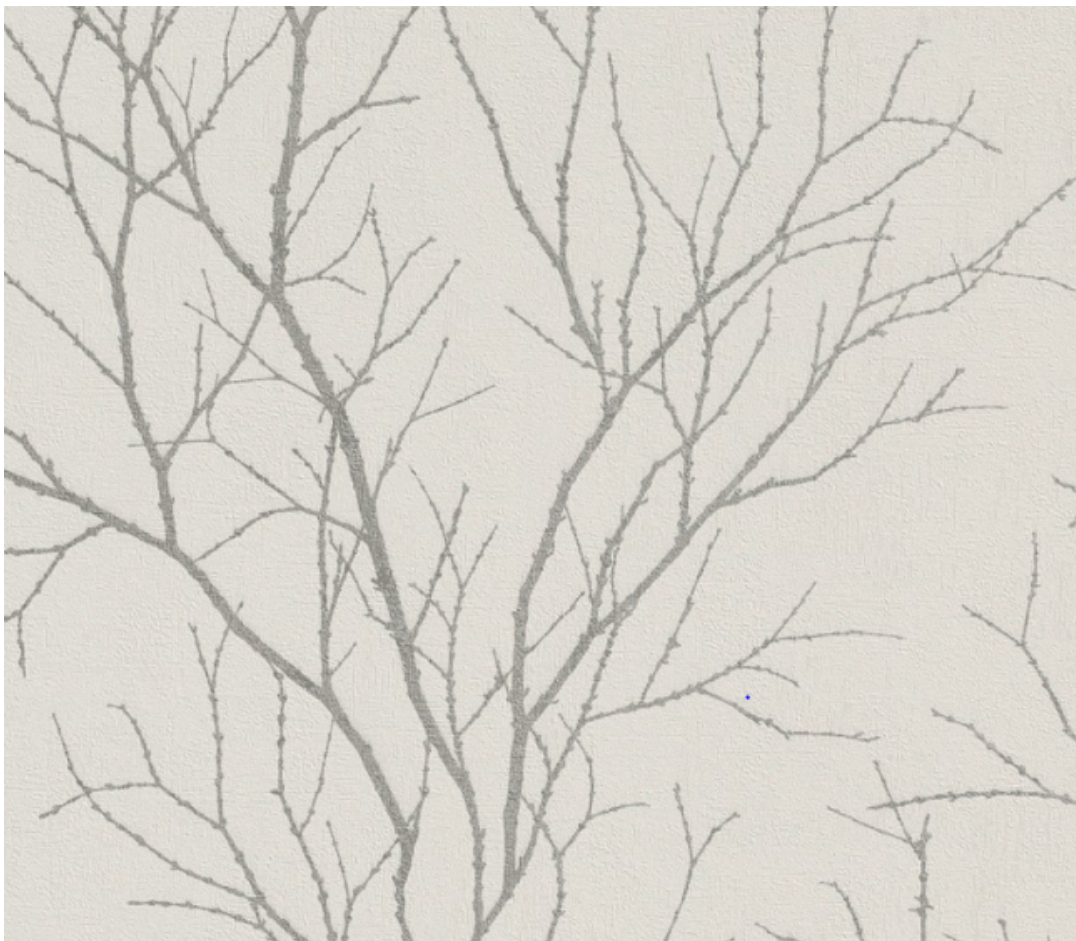

clothing

Pattern or not?

Pattern or not?

Pattern or not?

Pattern or not?

Pattern or not?

How do we know if something is a pattern or not?

A pattern is a design that is repeated over and over again.

Task:

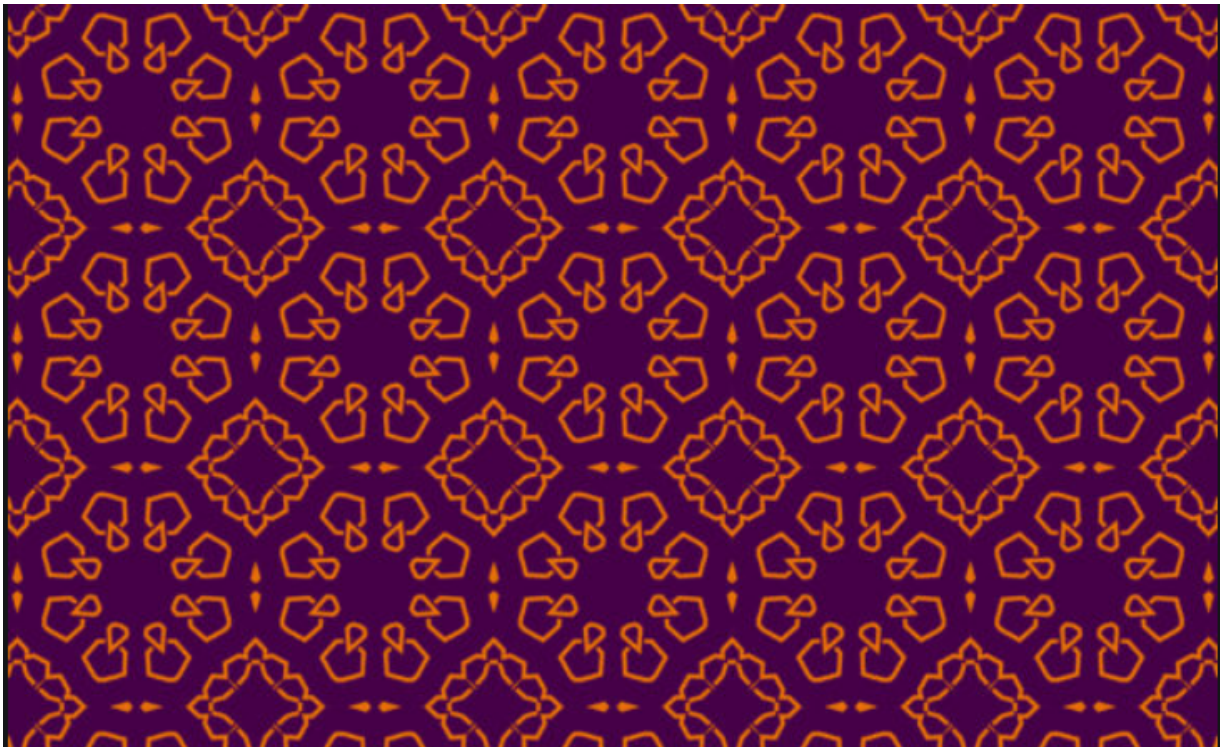

On the next slides you will see 5 different patterns. You must fill in the worksheet by looking at these patterns.

	What is the repeating pattern in this textile?	How would the pattern continue? Can you draw it here?	What do you think this textile could be used for? Why?
